

Specializing in Auto Dealerships

Cleaning maintenance programs tailored to fit your Auto Dealership needs.

Making a great first impression is essential to show your customers how much you value quality. A clean and safe showroom puts your best face forward to your customers.

Your Showroom Shines

Windows and other surfaces are shined to perfection for your high line showroom. Micro fiber cloths gently wipe away smudges and fingerprints, and specialized equipment brightens up hard granite or soft marble. Our highly trained professionals promise streak-free interior and exterior windows.

Special Floors, Special Care

Not all floors are the same, especially when it comes to the showroom. We are specifically trained to treat every type of floor surface to give you a mirror finish. Utmost care is exercised when stripping tile, waxing wood, buffing marble, and shampooing carpets. Porter services are also available to discreetly sweep away any debris that may appear throughout the day.

Healthy High Traffic Areas

A healthy and safe sales environment is essential for your customers and sales staff. Service bays and shop floors are scrubbed and free of spills, while we disinfect all surfaces in lobbies, waiting areas, and offices. State of the art vacuums keep air quality clean and fresh. Nightly maintenance schedules and other completely customized periodic programs are available to fit your specific needs.

Cleaner & Greener

While disinfectant cleaning cannot be 100 percent green due to the use of products needed to kill unwanted microorganisms, the use of greener cleaning products where possible can provide a healthier environment for car buyers to shop and for staff to work. We strive to use environmentally friendly cleaning products in our clients' automotive dealerships whenever practical.
